# LIGHT RUN OF CATTLE

At the East Liberty Yards, but Sufficient for All Demands.

NO HEAVY PRIMES WERE OFFERED.

The Largest Run of Calves This Season Puts Down Prices.

SHEEP STEADY AND SWINE WEAKER

OFFICE OF THE DISPATCH, PITTSBURG, MONDAY, March 28. At the East Liberty stock yards about 60 carloads of cattle were on sale at the open-

ing of markets this morning, against 70 loads last Monday and 73 loads the previous Monday. The quality of offerings today did not vary essentially from the late average. There was certainly no improvement this week over last. The great bulk of the beeves on sale consisted of common and low grade stock. There were 25 loads from Chicago, the balance being in the main from Ohio and Indiana.

Buyers were present in rather larger force than last week, but in spite of this and the light run markets showed no improvement over a week ago. There were on sale a few heads of good Ohio beeves weighing about 1500 pounds, for which a nickel a pound was asked, but prospects were very dim, as to their bringing this price. Fresh cows were in fair supply, and range of markets was the same this week as last, namely, \$20.00 to \$40.00 per bead.

Calves in Plenty.

The supply of veal calves was the largest of the season. There were not less than 400 on sale when markets opened, against little more than half this number the previous Monday. Markets opened slow at a sharp decline, the range being 41/4c to 51/4c per pound. Last week the top price was 6c, and

the week before 63/4c.

The run of sheep varied very little to-day from last Monday's run, the total being 13 carloads. Markets opened active and strong at last week's prices and all offerings found ready sale, with 6c as top price of

found ready sale, with 6c as top price of sheep and 73/c for lambs.

Hogs—The markets opened with 30 carloads on sale, and the demand was slow, with \$5 10 to \$5 15 as the outside price of best Philadelphias. At the Allegheny Stock Yards,

Receipts of cattle at the Herr's Island yards were light to-day and quality showed some improvement over last week. Markets were slow at slightly better prices than prevailed a week ago. Best heavy Chicagos sold at \$5 10 to \$5 25; medium weights at \$4 25 to \$5 00; light weights at \$4 25 to \$5 00; light weights at \$4 25 to \$4 75, and common to fair thin and rough steers at \$3 00 to \$4 00. Bulls and dry cows were quoted at 1½ to 3c per lb, calves at 4½ to 6c per lb and fresh cows at \$20 00 to

\$40 00 a head.

week, 287 head.

Sheep—Supply in this line was heavier than usual, but demand was good for all offered, and markets held up well to last week's advance. Sheep sold at \$6 00 to \$6 25 per cwt; yearlings at \$6 25 to \$6 50, and lambs at 6½c to 7c per lh.

Receipts: From Chicago—I. Zeigler, 170 head; L. Gerson, 115. From Ohio—J. Depew, 32; C. Volbrecht, 36. From Pennsylvania—E. D. Sergeant, 78. Total, 421; last week, 383; previous week, 401.

No Change in Porkers,

No Change in Porkers,

Hogs-Receipts light, and range of prices about as it was a week ago. The consumption of hogs seems to have very much fallen off the past few weeks. The wants of butchers

off the past few weeks. The wants of butchers and packers are greatly reduced. Best Chicagos sold at \$5 00 to \$5 25.

Receipts: From Chicago—L Zeigler, 86 head; L. Gerson, 172. From Ohio—Needy & Frank, 190; J. Depew, 25; C. Volbrecht, 27. Total, 510; last week, 663; previous week, 791. In addition to the regular receipts, 13 carloads of cattle and hogs were consigned to Witter & Co. for Harris Island consigned to Winter & Co. for Herr's Island abattoir.

Greenawalds had on sale at the Woods' Run vards 128 head of cattle from Chicago and 57 head from Ohio. Chicago beeves were retailed from 4 to 4%c per pound, and Ohio's from \$4 10 to \$4 85. At the same yards there were on sale 386 lambs and 125 hogs. Lambs were sold at a range of 61/c to 73/c, and hogs were retailed at

## The Drygoods Market.

New York, March 28.—Business in drygoods was moderate with agents, but the
weather was especially beneficial to retailers, which will be quickly felt in the jobbing
trade, though the latter's business was only
fair to-day. The market at first hands presented no new feature. The fine goods were
in leading interest for current wants, with a
fair demand for colored cottons. The condition of the market was unchanged.

### STILL BREAKING RECORDS.

Wheat Touches the Lowest Point Thi Season-Every Scrap of News Favors the Bears-The Depression Breaks Up One Firm-Corn Strong.

CHICAGO-To-day broke the record this year for low prices in the wheat pit. The figures for May, the ruling option, crashed down to 79c. A year ago this time a bushel for the same delivery was several cents

down to 79c. A year ago this time a bushel for the same delivery was several cents above a dollar. The demoralization produced one failure, that of C. P. Doerr & Co., who were on the wrong side of the market with 500,000 bushels on their hands. Flat foreign markets and an unusual grist of bearish news on this side of the water was what brought on the big slump.

A genuinely panicky feeling prevailed at the opening, and the price quickly fell le from the lowest point touched Saturday. Selling was general and persistent. Exhausted margins and stop-loss orders cut a considerable figure. May opened at 794@ 80c, but the selling pressure was enormous, and in less than three minutes it had touched 794c; but the indications from the reports as to the visible supply were that the increase would be as much as expected, and some began to doubt if there would, indeed, be any. The market quickly showed a disposition to recover. Shorts began to buy; the selling became less vicious, and the market turned. May broke to 794c, oroke again to 794c, then improved a trifle, and at 12 o'clock was about 794c. During the last hour the market develored greater weakness on very heavy cables and selling out of the long wheat held for Doerr & Co., and there was a gradual decline to 79c, the final figures.

Corn showed a good deal of strength in the face of the big decline in wheat. A good many commission houses had liberal orders, which were thought to be for the bull clique. May opened at 394c; sold at 394@ 894c; split, tens started up and sold to 404@409c; split, eased off to 404c and at 12 o'clock sold at 4094c. The market weakened during the last hour, mainly in sympathy with wheat, and May fell to 394c. Oats were hardly so firm as corn, but the decline was slight. May sold at 299@20c, and at 12 o'clock was the last hour, mainly in sympathy with wheat, and May fell to 394c. Oats were hardly so firm as corn, but the decline was slight. May sold at 299.@20c, and at 12 o'clock was corn. The support given to the provision market early was

APRIL SETTLEMENTS ALMOST DUE.

Spring Requirements.

Promising Schemes for Rural Hotels in Course of Development.

FEATURES OF MONEY AND SPECULATION

With a flavor of spring in the air, it is time for business people to take off their coats and assume the aggressive. They have been doing very well, it is true, keeping the volume of trade considerably above that of a year ago; but, lacking the courage of their convictions, they have not risen to the height of their opportunities. Condi-tions should inspire fresh effort. Seldom in the history of this country has the financial position been more favorable for an aggressive campaign. There was good reason for the lethargy which prevailed last year. Money was hard to get. Now the weight of idle funds is positively op-

pressive.

The timidity of borrowers is unaccoun able. There may be overproduction in a few specialties, but otherwise the markets have good absorptive capacity. Real estate presents a wide field for investment. presents a wide field for investment. People are clamoring for houses to live in. Business stands are at a premium. The supplying of these wants would put large amounts of money into circulation, relieve the financial congestion, and stimulate business generally. There are no portents of calamity to arouse apprehensions for the tuture. It is full of promise. Under these circumstances well enough is not sufficient when better is easily attainable.

Suburban Hotel Schemes. Talk of new hotels has quieted down in the city proper only to be taken up in the suburban districts. No city in the country has more attractive natural environments than Pittsburg. Their picturesque beauty, healthfulness and proximity to business would keep many people from going abroad during the summer if the right kind of hotel during the summer if the right kind of hotel accommodations were provided. There is serious talk of supplying this positive want. There are only two hotels in the East End district that make any pretension to thoroughness, and both of these are said to be crowded to inconvenience. There is no provision for the "summer boarder," who must take his chances. With a good run of business serviced was the avertice of a few ness seemingly assured, the erection of a few first-class summer hotels in commanding localities at short distances from the central part of the city would seem to involve a

Several schemes looking to this result are being talked up. It was mentioned in the SWNDAY DISPATCH that Ira M. Burchfield SWNDAY DISPATCH that Ira M. Burchfield was dealing with an Eastern gentleman for a hotel site in the Schenley Park district. W. C. Stewart has a similar transaction under way with a local capitalist. Both of these projects promise good results. Since the resale of the Morrison property in East Liberty talk has revived of converting it into a hotel, but this is doubtful. It is again reported that a hotel will be erected on the McKay lot at Edgewood. It was mentioned some time ago that Mr. T. O'Leary, Jr., was studying plans for a hotel on Frankstown avenue. It was learned yesterday that he has abandoned the idea for the season.

Special Features of Trade. Fifth avenue, just beyond the Court House, has been handicapped for years. Owners will neither sell nor improve. But there are

signs of a reversal of this policy in the early Mr. Charles I. Wade, cashier of the National Bank of Commerce, yesterday sold a lot in Edgewood at the rate of \$50 a loot front, the highest price so far realized in that borough. The purchaser will erect a handsome residence this spring.

## TRAFFIC IN MONEY.

Further Improvement Noted in the Call for

Bank Accommodations. The features of the local money market resterday were a slightly better inquiry for bank accommodations and possibly a small decrease in supply, denoting the drift to be toward a more active state of general trade. It is pretty safe to say that the time is near when accumulation will cease altogether This should not be interpreted as meaning a tight market. It will take some time to find employment for all the idle capital in the country. Money piled up in the banks is a detriment; in the hands of the people it is a stimulus. There was no change in the rate which ruled at 6 per cent on the regular classes of loans. Bank clearings were \$2,391,797 34 and balances \$557,589,76.

The quarterly settlement of the year 1892 is due on Thursday next, and it will result in heavy disbursements for dividends and interest, and yet it will be made without any monetary disturbance, and as it looks now without even a temporary flurry in the rates. There will certainly be no stringency, for the denosits of the city banks are well up toward the highest notch, and the surplus is large. So says a New York authority.

At New York yesterday money on call was easy at 13,622 per cent, last loan 2, closed offered at 2. Prime mercantile paper, 426 per cent, Sterling exchange quiet but stendy at \$4.86 for 60-day bills and \$4.88 for demand. This should not be interpreted as meaning a

THE WEEK OPENS WITH GOOD TRAD-ING AND STRONG PRICES.

Street Rai ways Drawing Cards and Contribute Most of the Business-Trading Largely of a Wholesale Character-Price Changes Show an Upward Drift, The stock market began the week yester-day with a stiff upper lip. Trading was good, aggregating upwards of 1,200 shares, and price changes were generally toward a higher level.

The street railways were the feature, con-The street railways were the leature, con-tributing the bulk of the business and focus-ing attention. They were all higher, with two exceptions, than Saturday's close. Birmingham, Duquesne and Manchester were the leaders of this group and of the market.

Of the natural gassers, Pipeage and Wheeling were stronger, but Philadelphia, after opening at Saturday's close, was forced down a good fraction. But the weakness was not deep-seated or radical. The general expectation that the May statement will be the best for several years is security against the best for several years is security against much of a break. It is, rather, good reason for further appreciation.

Luster was steady, but Electric finished a trifle lower than the opening. Switch, Airbrake and Cable maintained their positions. Trading was largely of the wholesale order, showing that strong investors are in the market.

outsville and Nashville and All the Conters Are Decidedly Weak-Reading an Exception-Rock Island Quite Active-General Bond List Quiet,

New York, March 28 .- The stock market to-day was again a limited one, the uncer-tainty over the silver question, the signing of the anding bill by the Governor of New Jersey and the shrinkage of loans by the New York banks all tending to restrict oper-ations, and especially for the long account. The buying throughout the day was of a dozen for round lots, and single cases at 14c. of renewed activity on the part of a leading bear operator. This was especially notable in the early dealings, when the pressure of short stocks for sale carried prices down over 1 per cent. While the covering of shorts at the decline was sufficient to cause a full rally, the resistance was so unexpected that only in a few shares was there any further animation manifested during the rest of the

The arbitrage houses were not a factor in the market, but the selling of Louisville and Nashville was heavy, and, as usual, was made to appear as liquidation of European accounts. Its movements, however, were too spasmodic to have any other than a speculative origin, and the same held true of those of all the leading active stocks, The recent transactions in the sugar trade seemingly have had their full effect upon the stocks of the American Refining Company, and evidences that the leaders deprecate any movement in those stocks at present are not wanting. The official denials of any trouble or disaffection among the Reorganization Committee of the Richmond and West Point had some influence on the preferred stock and the bonds to-day, but the common stock was still inclined to weakness until well into the day, when it rallied.

Northern Pacific was comparatively quiet and steady to-day, and the movement against it seems to have reached its limit. The only other stock showing any material life to-day was Rock Island, which gave evidence of the special attention from the bears in the forencon, and the Coalers, which were all materially depressed in the afterneon, Reading being the one exception.

The general market opened at insignificant changes from Saturday's prices, but the weakness of the leaders resulted in some small fractional losses throughout the list. These were afterward recovered in the general rally, and from that time dullness marked the dealings and fluctuations were without interest, though the late rise carried most of the list beyond last night's figures. The transactions in St. Paul were rather large, but the changes in quotations insignificant. The selling of Louisville and Nashville was the one feature of the afternoon's dealings, other than the weakness in the Coal stocks, and it steadily declined in the face of the strength manifested by the rest of the list.

The market closed quiet and firm, with most stocks at or near the best prices of the day, but only slightly better than first prices, and Louisville and Nashville is down 1½ the market, but the selling of Louisville and Nashville was heavy, and, as usual, was made to appear as ifquidation of European

OFFICE OF THE DISPATCH, } PITTSBURG, MONDAY, March 28. COUNTRY PRODUCE (Jobbing Prices)-Monday's receipts of eggs by the Ohio river were not so large as generally anticipated. The railroads, however, more than made up for the deficiency by river, and prices have weakened. Sales were reported at 13c per A few such spring-like days as this will, without doubt, bring prices down to 12c per dozen. Supply of choice creamery butter is short of demand, and markets are firm. Tropical fruits are active, with a tendency Tropical fruits are active, with a tendency to higher prices. New Southern vegetables are coming in more freely every day, and old stock is ceasing to be a factor in markets. It rariely occurs that potatoes are so abundant and low in price at this season of the years now. The clover seed boom, which lifted prices in the early part of March to the highest point for years, has spent its force, and markets are 50c per bushel below the highest price reached at that time.

A Shining Mark for Rascals

To aim the arrow of spurious imitation at is Hostetter's Stomach Bitters. Sometimes the shaft strikes, but rebounding destroys like the fatal shot in Der Freischutz, the evil marksman. Beware of all local bitters with or without labels which are colorable imitations of that of Hostetter's Stomach Bitters, or which are represented to equal the great curative and preventive of malaria, dyspepsia, constipation, liver and kidney trouble and nervousness. Insist upon having the genuine.
